

January 26, 2021

Dear brother Louis,

Trust in the Lord that you and your family doing very well and in a good health. Mimi and I sitting and thinking about you and saying that we really miss you guys and longing to see you again face to face.

We are as a family and church family doing well and healthy praise God. But still praying that this Corona pandemic ends very soon. We are in lockdown for a long time and it's becoming more and more severity and tightening, especially in public places due to the high percentage of people infected with the virus and the condition worsens, schools are closed, places of worship are almost closed (only 5 persons can gather) and leaving the house only to buy food, medicines, see a doctor, and very special cases. The situation is very difficult in all respects, visit people are forbidden, but Mimi and I try to visit those in desperate need for prayer, encouragement and giving foods supplies and etc.

How is your family and church doing in the midst of this crisis? How is your mother and sister doing in this difficult situation of the Corona pandemic? Mimi and I feel very happy when we watch you on Facebook playing with your grandchildren. They look very happy and joyful. Hope your son Luke also finds a good wife.

We pray for you and for the other churches. We look forward to seeing you God willing.

Please give our warm regards and greetings to your family and church members and wish you by

God's grace all the best.

Your brother and friend,
Afif
